

# Tornado™

The New Poly/Electric Hopper Spreader from **WESTERN®**

The new Tornado™ poly/electric hopper spreader offers a whirlwind of unique features that can't be found on competitive models. The Tornado™ uses a rubber belt conveyor that delivers a more even flow of material – either sand, salt or a sand/salt mix – and its built-in top cover doubles as a spill guard to protect the truck bed when lifting the hopper.

**CONVEYER BELT**

Belt conveyor (driven by a single 1/2 HP electric motor) delivers a more even flow of material.

**TOP SCREEN**

Standard top screen with two-piece poly cover doubles as a spill guard to keep material out of the truck bed.

**MOLDED REAR "FEET"**

Molded rear "feet" make removal, cleaning and storage easy.

**SPEED CONTROL**

Variable speed control utilizes multiplexing technology to provide self-diagnostics.

**QUICK-DETACH SPINNER**

Quick-detach spinner assembly makes spreader removal and storage easier than ever.

**Tornado™ Spreader Specifications**

CAPACITY	LENGTH	WIDTH	WEIGHT	SPINNER	AMP DRAW	CONVEYER
1 m <sup>3</sup>	213 cm	127 cm	250 kg	40 cm Poly	20-35	40 cm
